

p53(Ab-33) Antibody

Catalog No: #21088

Package Size: #21088-1 50ul #21088-2 100ul #21088-4 25ul

Overview

Product Name	p53(Ab-33) Antibody
Host Species	Rabbit
Clonality	Polyclonal
Applications	WB
Species Reactivity	Hu
Immunogen Type	Peptide-KLH
Target Name	p53
Alternative Names	Tumor suppressor p53; Phosphoprotein p53; Antigen NY-CO-13

Application Details

Predicted MW: 53kd
Western blotting: 1:500~1:1000

Images

Western blot analysis of extracts from HT29 cells using p53(Ab-33) Antibody #21088.

Descriptions

Immunogen	Peptide sequence around aa. 31~35 (V-L-S-P-L) derived from Human p53.
Specificity	The antibody detects endogenous level of total p53 protein.
Purification	Antibodies were produced by immunizing rabbits with synthetic peptide and KLH conjugates. Antibodies were purified by affinity-chromatography using epitope-specific peptide.
Formulation	Supplied at 1.0mg/mL in phosphate buffered saline (without Mg2+ and Ca2+), pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol.
Storage	Store at -20°C for long term preservation (recommended). Store at 4°C for short term use.
Accession NO.	Swiss-Prot: P04637NCBI Protein: NP_000537.3

## Related Information

Acts as a tumor suppressor in many tumor types; induces growth arrest or apoptosis depending on the physiological circumstances and cell type. Involved in cell cycle regulation as a trans-activator that acts to negatively regulate cell division by controlling a set of genes required for this process. One of the activated genes is an inhibitor of cyclin-dependent kinases. Apoptosis induction seems to be mediated either by stimulation of BAX and FAS antigen expression, or by repression of Bcl-2 expression. Implicated in Notch signaling cross-over.
