

Tau(Ab-231) Antibody

Catalog No: #21099

Package Size: #21099-1 50ul #21099-2 100ul #21099-4 25ul

Overview

Product Name	Tau(Ab-231) Antibody
Host Species	Rabbit
Clonality	Polyclonal
Applications	WB IHC
Species Reactivity	Hu Ms Rt
Immunogen Type	Peptide-KLH
Target Name	Tau
Alternative Names	Neurofibrillary tangle protein; Paired helical filament-tau;

Application Details

Predicted MW: 48 62 78 kd
Western blotting: 1:500~1:1000
Immunohistochemistry: 1:50~1:100

Images

Western blot analysis of extracts from mouse brain tissue using Tau(Ab-231) Antibody #21099.

Immunohistochemical analysis of paraffin-embedded rat hippocampal region tissue from a model with Alzheimer

Descriptions

Immunogen	Peptide sequence around aa. 229~233 (V-R-T-P-P) derived from Human Tau.
Specificity	The antibody detects endogenous level of total Tau protein.
Purification	Antibodies were produced by immunizing rabbits with synthetic peptide and KLH conjugates. Antibodies were purified by affinity-chromatography using epitope-specific peptide.
Formulation	Supplied at 1.0mg/mL in phosphate buffered saline (without Mg ²⁺ and Ca ²⁺), pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol.
Storage	Store at -20°C for long term preservation (recommended). Store at 4°C for short term use.
Accession NO.	Swiss-Prot: P10636NCBI Protein: NP_001116538.1

Related Information

Promotes microtubule assembly and stability, and might be involved in the establishment and maintenance of neuronal polarity. The C-terminus binds axonal microtubules while the N-terminus binds neural plasma membrane components, suggesting that tau functions as a linker protein between both. Axonal polarity is predetermined by tau localization (in the neuronal cell) in the domain of the cell body defined by the centrosome. The short isoforms allow plasticity of the cytoskeleton whereas the longer isoforms may preferentially play a role in its stabilization.
