

# TYK2(Ab-1054) Antibody

Catalog No: #21118

Package Size: #21118-1 50ul #21118-2 100ul #21118-4 25ul

## Overview

Product Name	TYK2(Ab-1054) Antibody
Host Species	Rabbit
Clonality	Polyclonal
Applications	IHC
Species Reactivity	Human Mouse Rat
Immunogen Type	Peptide-KLH
Target Name	TYK2
Alternative Names	tyrosine kinase 2; JTK1;

## Application Details

Predicted MW: 140kd
Immunohistochemistry: 1:50~1:100

## Images

Immunohistochemical analysis of paraffin-embedded human breast carcinoma tissue using TYK2(Ab-1054) Antibody #21118(left) or the same antibody preincubated with blocking peptide(right).

## Descriptions

Immunogen	Peptide sequence around aa.1052~1056 (H-E-Y-Y-R) derived from Human TYK2.
Specificity	The antibody detects endogenous level of total TYK2 protein.
Purification	Antibodies were produced by immunizing rabbits with synthetic peptide and KLH conjugates. Antibodies were purified by affinity-chromatography using epitope-specific peptide.
Formulation	Supplied at 1.0mg/mL in phosphate buffered saline (without Mg2+ and Ca2+), pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol.
Storage	Store at -20°C for long term preservation (recommended). Store at 4°C for short term use.
Accession NO.	Swiss-Prot: P29597NCBI Protein: NP_003322.3

## Related Information

---

TYK2 encodes a member of the tyrosine kinase and, more specifically, the Janus kinases (JAKs) protein families. This protein associates with the cytoplasmic domain of type I and type II cytokine receptors and promulgate cytokine signals by phosphorylating receptor subunits. It is also component of both the type I and type III interferon signaling pathways. As such, it may play a role in anti-viral immunity. A mutation in this gene has been associated with hyperimmunoglobulin E syndrome (HIES) - a primary immunodeficiency characterized by elevated serum immunoglobulin E.
